

1114 MEURILEE LANE • SILVER SPRING, MD 20901

Solidly built, this Brick Colonial in the sought after Four Corners area is located less than a mile from the Forest Glen metro (red line) and the walking trails, basketball and tennis courts of Sligo Creek Park. And it's just a short drive to downtown Silver Spring.

This home is charming from head to toe. Step into its front vestibule to remove your coat. Move through the front door and take in the warmth of this classic Colonial. Some of its wonderful features include beautiful hardwood floors on the upper and main levels, built-in bookcases in the living room and a built-in hutch in the dining room. The efficient all-white kitchen has considerable counter space for its size.

Large bay windows on the main level and multiple windows on the upper level fill this 3 bedroom, one-and-a-half bath home with natural light. The den has a lovely tiled floor making it a great playroom or sitting room. And these owners created a new, inviting family room in the lower level. With its adjacent half bath, this area works well for out-of-town guests and football parties alike.

The back yard of this home is deep and completely fenced. Two sitting areas make great places for dining al fresco or just enjoying a lazy afternoon. And the shed is a good place to store all your gardening tools and outdoor items.
